# Brandmark and symbol

As our most recognisable brand elements, the ZeeFi brandmark and symbol are an iconic encapsulation of our purpose to seamlessly connect students to education providers.

#### Brandmark

The full colour version of the brandmark is the preferred version and should be used, where possible.

#### Symbol

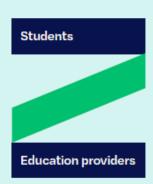

The symbol features prominently on communications – separate from the brandmark.

Create a dedicated ZeeFi information page on your website. It's important to have a good amount of information available. Students will have plenty of questions when learning about payment plans, so the more information you can provide, the more a student can self-service and answer their own questions.

#### Introduce ZeeFi

Most students don't know the name *ZeeFi* until they learn about us through their education provider, so take a moment to introduce us. We recommend using language that clearly highlights that ZeeFi is a third party, but one with a strong alliance to the education industry and your institution. For example:

We have partnered with ZeeFi, Australia's fintech partner to the education sector, committed to providing students affordable payment plans to enable better access to quality education.

#### List products offered and explain them clearly

Although it's helpful to introduce ZeeFi as a brand, be sure to list the specific products you offer to students and explain them clearly. Use our copy to help. For example:

#### STUDY NOW PAY LATER

Study Now Pay Later removes the financial barrier to enable you to access quality education. Available for courses valued between \$500 to \$20,000, this flexible, interest-free payment plan allows you to focus on studying first and paying later.

#### Here's what you get:

Once approved, ZeeFi will pay us for your study on your behalf
