How do I receive the log in details for the Partner Portal?

When you sign an agreement with us, we'll create you a [Partner Portal](#) account. We'll also send you a welcome email with your username and one-time password for the first time you log in.

How to log in to the Partner Portal?

Go to our [Partner Portal](#) and provide your verified email address and password. If you've forgotten your password, follow the prompts to reset it.

I can't reset my portal password, what can I do?

If you tried resetting your account password but didn't receive the "Reset Your Password" email, follow [this guide](#) to help you troubleshoot the issue.

Can I submit an SNPL application on behalf of a student?

Yes, however the student will need to complete some parts of the application independently, such as providing bank statements. You will need to email your student a link (as part of our automated process) so they can upload their statements via [bankstatements.com.au](#).

Why do you require my student's online bank details?

When providing a student with credit, we are legally obliged to ask about and verify their income and expenses. We do this by looking at their bank accounts and/or statements via the bankstatements.com.au service, provided by Illion (formerly Dun & Bradstreet). [Illion](#) is independently tested and audited by external security experts and encrypted with bank-level security. We are limited to read-only access to bank statements, and we can't view passwords or make transactions.

How long does it take to process a student's application?

Our application process is entirely online and if we receive all necessary information from the student there will be a decision on the application within the hour.

How will I be notified when a student's application is approved or declined?

A student's application status in our Partner Portal will update to 'Approved' or 'Rejected'. Once a student has been approved and has signed the agreement, you'll receive an email notification (if you opt to have this feature turned on) so you can log into the portal and activate the payment plan.

How do I cancel a student's application?

Contact your Account Manager or email support@zeefi.io to cancel an application.

What happens if a student defers education or fails a unit?

We recommend they first speak to you about re-sitting the unit or deferring their studies. They will still need to make repayments in line with their agreement.

What happens is a student stops studying before completing repayments?

If a student withdraws from your course, they need to pay the remaining balance under their agreement, subject to your refund policy. Any refunds you issue will be paid to us to place against the outstanding obligation.

What if a student gets into financial hardship?

We understand circumstances can change and are committed to servicing collections with compassion. If a student finds themselves in financial hardship, they need to call us immediately. We will try to work with them to reach a payment arrangement that is individual to their needs.

Thank you
